

## **Key Personnel**

### **Glenn Bachmann President and Founder**

**Glenn Bachmann** is president and founder of Bachmann Software, a leading provider of wireless file management, networking, backup and printing software products and software development consulting services for popular handheld and smartphone products. A veteran of over 20 years in the software industry, Mr. Bachmann has since 1996 pursued a unique vision for mobile computing, focusing on the design and creation of easy-to-use software that transforms handheld organizers and phones into full-fledged computing devices. His company Bachmann Software is dedicated to achieving that vision, both for its own products as well as the software products created on behalf of its clients and partners. Mr. Bachmann is the noted author of several published books and articles on handheld and wireless programming and the unique challenges of managing success mobile software projects.

### **Peter Angiuoli Chief Software Architect**

**Peter Angiuoli**, a partner at Bachmann Software and employed by Bachmann since 2001, is a seasoned designer and software developer, having either created or led Bachmann's development team in over 50 mobile computing software projects. Mr. Angiuoli is ultimately responsible for the successful execution of all software projects at Bachmann Software, and serves as technical liaison to Bachmann's clients and partners in guiding them to their completion.
